

General Features

Super MultiDrill GS and HGS types are solid carbide drills that employ a new flute design and wide chip pocket to achieve excellent chip management and evacuation. DEX coating enables stable and long tool life over a wide range of work materials and applications.

Characteristics and Applications

Long tool life

New cutting edge design and special DEX coating provide long tool life with a wide variety of work materials.

Stable chip evacuation

New flute shape significantly improves chip management and evacuation.

Quiet cutting and stable cutting resistance

Stable drilling with little wobble even in small machine applications.

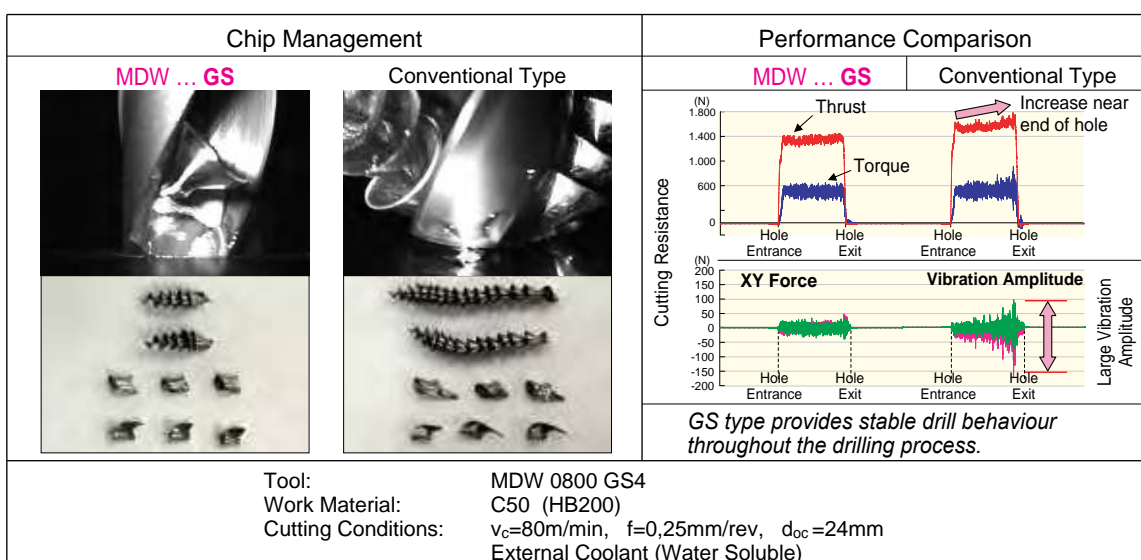

Environmentally-friendly

Compatible with the MQL (Minimum Quantity Lubrication) system.
